

Important Information Regarding the Administration of Medication

In accordance with the Department of Public Health of the State of Connecticut, eCamps Inc. has written policy regarding the administration of medication. Our summer programs limit medication usage to camper self administration (of a school age). Our program will keep the proper documentation on file. If your child brings to camp an Epi-Pen, inhaler or other prescribed oral or topical medication, or a non-prescribed (over-the-counter) oral or topical medication that may need to be provided, camper must be able to self-administer.

Please complete and return the following forms:

Health Record and Release Form

Self-Administration of Medication Form

Be sure to read the Administration of Medication Policy below.

Administration of Medication Policy

eCamps Summer Programs will keep on file the following information:

Prescribed inhalers, Epi-Pens or other medications with parents' consent and a doctor's signature.

Non-prescription oral medications with parent's consent and a doctor's signature

A separate authorization form is needed for each individual medication brought to camp, and each requires both a parent's and a doctor's signature.

Parents Responsibilities

It is the parent's responsibility to inform program staff upon registration that their child has a prescribed inhaler, epi-pen, or other medication. The medication must be maintained privately in the child's bag so as to be inaccessible to other children. Medication forms are required to be signed by parent and physician before the program starts.

Form must include:

The child's name, address, and birth date

The medication name

The prescribed dose

The method of which it will be self-administered (oral, topical, Epi-pen, etc)

The time to be self-administered

The side effects

The prescriber's name and address

Medications must be in their original container and clearly labeled.
